Curriculum Vitæ

Career Profile

Ryan is a seasoned technology professional with over 10 years of experience delivering scalable web platforms and enterprise applications. While his foundation lies in full stack development, he has consistently played a pivotal role in web development across diverse projects — gathering requirements, translating stakeholder needs into technical specifications, and aligning development efforts with business goals.

He holds a Bachelor's degree in Computer Science (Information Systems option as a business minor) from Concordia University. His hybrid skill set enables him to bridge the gap between technical teams and business stakeholders, ensuring that solutions are both technically sound and strategically aligned.

Throughout his career, Ryan has contributed to requirements analysis and solution design in roles at National Bank of Canada, IDEKA, Université de Sherbrooke, Airudi, CGI, and Yellow Pages. He has collaborated with product owners, QA teams, and end users to refine workflows, document use cases, and validate business rules. His experience spans financial services, healthcare, government, and SaaS platforms.

Ryan brings strong communication skills, a detail-oriented mindset, and a commitment to agile delivery. His certifications — including Professional Scrum Master I and AWS Certified Cloud Practitioner — reinforce his ability to lead cross-functional teams and deliver value through iterative development and continuous feedback.

Technical Competencies

Languages: HTML, JavaScript (ES7), TypeScript, Java (JDK 17), C#, CSS3, SASS, Shell, VB.NET

Frameworks: React, Material Design, Aurelia, Express, Angular, .NET, Xamarin

Databases: MongoDB, MSSQL

Testing: Mocha, Chai, Karma, Jasmine, SinonJS, JUnit

Tools: Git, Swagger, VSCode, Copilot, IntelliJ, Jira, Sourcetree, Git Bash, MSSQL Management Studio, DataDog

Operating Systems: Windows, Mac OS X, Linux, UNIX

Other: REST APIs, Microservice Architecture, Agile/Scrum

Professional Experience

National Bank of Canada – Chief Web/Mobile Developer

Jan 2023 – Present | Montreal, QC & Toronto, ON

- Maintain, improve, and add functionalities to web and API applications to support client facing app: <https://app.bnc.ca>
- Work across the full stack: Java Spring Boot backend, React front-end.
- Integrating multi-agent AI orchestration into daily operations, using planning agents and sub-agents to coordinate research, code generation, refactoring, and documentation tasks.
- Using state-of-the-art AI models (Claude Sonnet, Codex, and others) to enhance productivity in software development, data analysis, and solution design.
- Deliver scalable solutions to millions of users. Requirements analysis.

Technologies: Java Spring Boot, GraphQL, CoPilot, React, CSS, SASS, REST

IDEKA – Senior Full Stack Developer Consultant (National Bank of Canada)

Jan 2022 – Dec 2022 | Montreal, QC

- Maintain, improve, and add functionalities to web and API applications Maintain, improve, and add functionalities to web and API applications to support client facing app: <https://app.bnc.ca>
- Work across the full stack: Java Spring Boot backend, React front-end.
- Deliver scalable solutions to millions of users. Requirements analysis.

Technologies: Java Spring Boot, GraphQL, CoPilot, React, CSS, SASS, REST

Université de Sherbrooke – La Société des Médecins – Programmer Analyst

Feb 2021 – Nov 2021 | Remote

- Enhanced features in Xamarin, Aurelia, and VB.NET for medical invoicing.
- Developed .NET Entity Framework APIs and conducted unit testing.

Technologies: .NET Core, Aurelia, Xamarin, MSSQL, REST

Airudi Inc. – Full Stack Developer
Nov 2020 – Jan 2021 | Montreal, QC

- Maintained and improved Vue/Nuxt recruitment platform with .NET backend.
- Developed encryption features and conducted unit testing.

Technologies: .NET Core, Vue.js, Nuxt.js, Azure, REST

CGI Inc. – Full Stack Developer
Jan 2020 – Sep 2020 | Montreal, QC

- Developed FXSuite features using Angular 6 and Java.
- Implemented keyboard-only navigation features for trader workflows.

Technologies: Java, Angular 6, MSSQL, REST

Yellow Pages – Back-End Developer
Sept 2018 – Dec 2019 | Montreal, QC

- Built microservices and facilitated data migration from legacy systems.
- Integrated with third-party platforms like Salesforce and Zuora.

Technologies: Node.js, Angular 4, MongoDB, MSSQL, REST

Omniscient Technologies – Full Stack Developer
Oct 2017 – Aug 2018 | Sherbrooke, QC

- Built accessible CMS and hybrid mobile app (EVV project) tailored for users with visual and cognitive impairments. Requirements analysis.

Technologies: .NET Core, Angular 6, Aurelia, REST

CGI - RXP Retail 360 – Front-End Developer
Jul 2017 – Oct 2017 | Sherbrooke, QC

- Refactored Angular 4 UI code and implemented bug fixes to optimize performance.

CGI - Ville de Montréal – MEAN Stack Developer

Sept 2016 – Jul 2017 | Montreal, QC

- Developed traffic monitoring application with real-time features and mobile notifications. Requirements analysis.

Technologies: Node.js, Angular 4, MongoDB, REST, Docker, Jenkins

CGI - Quest / Spectacor – MEAN Stack Developer

Mar 2016 – Aug 2016 | Sherbrooke, QC

- Enhanced telemedicine interface using AngularJS and Node.js.

Technologies: AngularJS, Node.js, MongoDB

CGI Teams App – iOS Developer

Feb 2016 – Mar 2016 | Sherbrooke, QC

- Developed an internal mobile app with Xcode and Swift.

Technologies: Xcode, Swift

Zodiac Aerospace – Team Lead

2005 – 2010 | Kirkland, QC

- Lead in quality control for luxury aircraft interiors.
- Managed cross-functional communication between engineering and production.

Education

Bachelor of Computer Science (Information Systems Option)

Concordia University, Gina Cody School of Engineering & JMSB – 2015

Associate of Industrial Design

The Art Institute of Pittsburgh – 2001

Certifications & Awards

- **AWS Certified Cloud Practitioner – 2023**
 - **Professional Scrum Master I – 2021**
 - **SQL – Intermediate Certificate – 2020**
 - **Dean's List Graduate – 2001**
